

Etwas zum Knobeln

Jede Figur bedeutet eine Ziffer (gleiche Figuren = gleiche Ziffern).
Setzen Sie die richtigen Ziffern in die Rechnung ein!

$$\begin{array}{r} \bullet \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright - \bullet \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright \\ + \qquad \qquad \qquad + \qquad \qquad \qquad \qquad \qquad \times \end{array}$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright : \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \bullet \bullet$$

$$\circ \circ \circ \circlearrowleft + \bullet \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

Trimm den Grips

Jede Figur bedeutet eine Ziffer (gleiche Figuren = gleiche Ziffern).
Setzen Sie die richtigen Ziffern in die Rechnung ein!

$$\bullet \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright : \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright - \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright - \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

Für Hobby-Mathematiker

Jede Figur bedeutet eine Ziffer (gleiche Figuren = gleiche Ziffern).
Setzen Sie die richtigen Ziffern in die Rechnung ein!

$$\bullet \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright + \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circ \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright +$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright + \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright \times \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

Eine verzwickte Rechnung

Jede Figur bedeutet eine Ziffer (gleiche Figuren = gleiche Ziffern).
Setzen Sie die richtigen Ziffern in die Rechnung ein!

$$\bullet \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright : \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright + \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright$$

$$\circlearrowleft \circlearrowright \circlearrowleft \circlearrowright + \circlearrowleft \circlearrowright \circlearrowleft \circlearrowright = \circ \circ \circlearrowleft \circlearrowright$$
